

FOR IMMEDIATE RELEASE

Chisholm Trail Grass-fed Beef Brings Holiday Cheer to Rockwall, Texas, Residents through Get Healthy Rockwall

WHO: [Chisholm Trail Grass-fed Beef](#)
[Get Healthy Rockwall](#)

WHY: Rockwall is the fifth most health conscious county in Texas. However, many of the residents struggle with chronic issues such as diabetes, hypertension, arthritis and cardiovascular disease. To combat these issues, a new store just opened in December in Rockwall, Get Healthy. This brick-and-mortar grocery market is committed to helping people get healthy physically, mentally, emotionally and spiritually. This means they provide the best products and services to help those who want to better themselves.

WHAT: With a mission so strongly tied to health, it's no wonder why Get Healthy chose Chisholm Trail Grass-fed Beef to supply all cuts of grass-fed beef to its Rockwall residents. Committed to providing the best, all-natural grass-fed beef, Chisholm Trail never gives its cattle antibiotics or hormones. It is also never finished in feedlots, which causes an evolutionary toll on the human body when ingested. This results in happier, healthier animals and leaner USDA-approved, grass-fed beef packed with vitamins and nutrients.

###

About Chisholm Trail Grass-fed Beef

Chisholm Trail Grass-fed Beef is a rancher-owned and -operated cooperative that raises longhorns locally on family ranches around Texas. Chisholm Trail cattle graze in pastures and thrive without added hormones or unnecessary antibiotics, placing far less stress on the natural environment than grain-fed cattle raised on factory farms. Chisholm Trail partners are focused on providing delicious red meat for healthy eaters and educating people on the nutritional significance of 100-percent grass-fed beef. For more information, visit www.eathealthybeef.org or connect with them on [Facebook](#) and [Twitter](#).
